# Dawn Ackerman

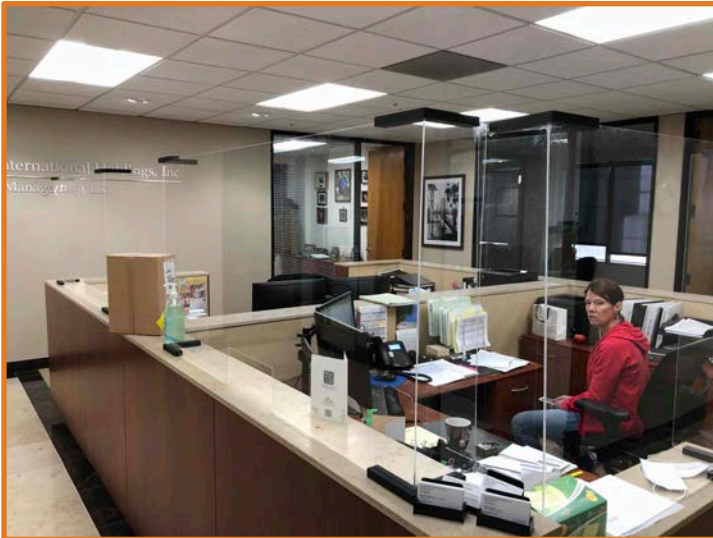

An office interior design company that provides service and centralized management for your new office, your renovation, or your relocation.

We manage all aspects of design and moves, including construction and cosmetic improvements, procurement and installation of furniture, and the selection of art, decor and office products.

Our design goal is to enhance all aspects of an office interior, to achieve a healthier, aesthetically pleasing and functional environment that reflects an organization's style and brand.

As a live + digital brand experience agency, we are uniquely qualified to help our clients quickly pivot their experiential plans and reopen their offices and customer spaces safely under new Covid-19 guidelines.

Alternative digital strategies for clients who need smart solutions to cancelled or postponed events conferences and trade shows. Unique activation ideas for brands looking to connect on a regional level.

*Salesforce Office Re-opening signage program and placement recommendations. The goal was to consistently communicate and reinforce new office protocols in alignment with the new workspace designs.*

*When you purchase our face covers, a portion of proceeds are donated to efforts in helping Feed America feed nearly every US community in need.*

When it comes to our teeth, the dental industry has set the standard for the prices we expect, the level of inconvenience we tolerate, and the ingredients and materials used in our dental products.

Dental products are inaccessible to many, sold at a huge markup, and not produced with the customer's, or the planet's, best interests in mind. OTIS is creating a culture of transparency around oral care, with environmentally friendly products that work; tools that empower you with what's needed to take control of your oral health.

Washable face covers  
that provide comfort and protection.
